## VARIETALS

Pinot Noir  
Pinot Gris  
Chardonnay

YEARS	DETAILS	SCORE
2002	Warm, near ideal temperatures; ripe and good, late harvest	93
2003	Low acidity and higher alcohol made for challenging conditions	89
2004	Cooler temperatures and higher acidity led to wonderful and balanced wines	93
2005	Heat from the vintage led to inconsistent results amongst producers; best wines were excellent	90
2006	Growers were pleased with excellent conditions which led to rich fruit and good acidity	92
2007	Greatly overlooked vintage; lots of late bloomers. High acidity wines with less rich fruit	88
2008	Near ideal growing conditions led to balanced and ripe fruit	95
2009	Warm vintage led to rich fruit; some balance issues	93
2010	Gorgeous wines with tremendous structure and aging potential	94
2011	Like 2007 and underestimated, cold vintage that led to structured wines without rich fruit; very Burgundian wines that need time in the cellar	88
2012	Near perfect growing conditions led to structured and dense fruit set; gorgeous, age-worthy Pinots	95
2013	Excellent growing season but torrential rains at harvest; those who picked early did best	89
2014	Ripe and expressive Pinot Noirs from the warm, high yielding vintage; some gorgeous whites from top producers	95
2015	Very hot vintage which led to consistency across the board for Pinot Noir and slightly more challenging conditions for Chardonnay and Pinot Gris	93
2016	Another warm vintage which created ideal conditions for ripe, fruit-driven Pinots with good acidity. Gorgeous white wines as well.	95
2017	Hot summer led to well-concentrated Pinot and Chards. Consistency impressive even with inexpensive wines.	93

YEARS	DETAILS	SCORE
2018	Very warm temperatures but massive 50+ degree diurnal shifts and cooling in September led to very opulent wines with verve.	94
2019	NYR	
2020	NYR
